I love my new sign.

I mean I really love my new sign. You guys did a great job. I have had a lot of comments on it.

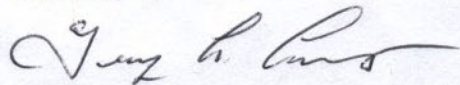

I have to say that Dave your job site foreman was a great person to work with on this project and was very helpful with whatever I needed. He gave me some good ideas on the electrical that I had to do and he was very helpful in the finish work. He is a great asset to your company; I hope you are all very proud of him.

Mike was very helpful with everything in the beginning, with ideas on the diff. Colors, designs, etc. Mike was also very helpful in getting us a leasing company to handle my lease.

Thank you to Mike, Gary, and Dave.

Thanks to all your crew people, designers, builders, etc. to everyone who had anything to do with this project for me.

Thanks again
